every trace of the taint.

I was afflicted with a terrible blood disease, which was in spots at first, but afterwards spread all over my body. These soon broke out into sores, and it is easy to imagine the suffering I endured. Before I became convinced that the doctors could do no good. I had spent a hundred dollars, which was really thrown away. I then tried various patent medicines, but they did not reach the disease. When I had finished my first bottle of B. S. S. I was greatly improved and was delighted with the result. The large red splotches on my chest began to grow paler and smaller, and before long disappeared extirely. I regained my lost weight, became stronger, and my appetite greafly improved. I was soon entirely well, and my skin as clear as a piece of glass.
